Outside [⇕]

Background for selected row: 18893B (Hex) 27,185,59 (RGB)

- If you tap '+', you segue to next screen where you enter and save data entered.
- Tableview populates with saved data
- Clicking on a tableview cell row segues to that screen with saved data
- choosing 'No-show', or 'Confirm seating', or 'Remove', allowed by tapping 'Update', on next screen removes them from the tableview rows

If "Priority 8hr" = 'on' then make background color for that row green:
1BB93B (Hex)
27, 185, 59 (RGB)
otherwise background color white (none)

Sort by "Priority 8hr", if 'on', first, then by time (highest time to lowest)

Use timestamp to show total time since row data in row was created

White color for +/icons

Background color:
034FF (Hex)
or
3, 68, 79 (RGB)

628388 (Hex)
98, 131, 136 (RGB)
